

How do I clear the option to hide file extensions for known file types?

In Windows XP:

In Windows Explorer go to the **Tools** menu

Select **Folder Options**

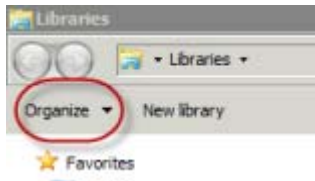

Click the **View** tab

Clear the **Hide file extensions for known file types** check box

Click **OK**

In Windows 7

In Windows Explorer go to the Organize Icon

Click Folder Options

Click the View Tab

Clear the **Hide file extensions for known file types** check box

Click **OK**
